### PROFILE

Detail-oriented SQL Developer with over a year of experience in database design and query optimization. Demonstrates proficiency in SQL, Excel, and Python, alongside a strong aptitude for data cleaning and visualization. Proven ability to uncover insights that support data-driven decision-making, aiming to leverage analytical skills in a dynamic data-focused role.

### EXPERIENCE

**SQL Developer** • 07/2023 – 12/2024

Raice Tech Soft Pvt. Ltd. • Hyderabad, India.

- Designed and managed relational databases to ensure data integrity and accuracy.
- Executed complex SQL queries, stored procedures, triggers, views, and indexes using DML and DDL commands.
- Developed and enhanced intricate SQL queries for retrieving and analyzing large datasets.
- Optimized SQL queries and stored procedures, reducing execution time by significant percentages.
- Crafted T-SQL queries and procedures to generate dynamic DML scripts for modifying database objects.
- Designed and implemented an SSIS package for importing and exporting data from various sources.
- Fostered positive communication and collaboration with stakeholders at all business levels.

### Skills

- **Database:** MySQL, Microsoft SQL Server, Oracle
- **SQL:** T-SQL, SQL query optimization
- **Tools and Technologies:** SSIS, Power BI, and MS Excel
- **Programming Language:** Python (Pandas, NumPy, Matplotlib)
- **Key Skills:** Database Design, Query Optimization, ETL Development, Data Analysis, Exploratory Analysis
- **Operating System:** Windows
